**FreedomVOICE Systems Discounts Communications Tools to Help  
Samaritan's Purse Conduct Operation Christmas Child**

*Encinitas, CA...* FreedomVOICE Systems, an Encinitas-based provider of a wide array of integrated virtual office tools, has once again discounted its toll-free services to Samaritan's Purse to conduct their annual Operation Christmas Child, a drive to provide shoebox Christmas gifts to needy children throughout the world.

"Last year, Samaritan's Purse delivered more than 7.6 million shoebox gifts to children in more than 90 countries," said Eric Thomas, founder and CEO of FreedomVOICE. "We like to think our technology helps them conduct this most important program."

Operation Christmas Child, the world's largest Christmas project, set up 356 Collection Centers throughout the United States this year. For each of these sites, the toll-free phone numbers allow donors to get information about dropping off gifts. All calls are routed to FreedomVOICE where prerecorded messages in English and Spanish provide the location, directions and hours of operation for that Collection Center as well as how to find out more information about the project.

In addition to per minute discounts, FreedomVOICE Systems also provides a free Internet control panel for each Collection Center called WebLINK. The control panels allow Samaritan's Purse staff to access voice mail and to adjust the various settings for their voice mail systems. Collection centers are actively receiving donations for only one week during the year. FreedomVOICE voice mail systems provide information about the centers from August through November, amounting to a donation value of more than \$20,000.

**-More-**

"The FreedomVOICE system provides a way for volunteers and donors to contact the various Operation Christmas Child collection sites," said Jennifer Simons, Domestic Logistics Coordinator with Samaritan's Purse. "It's a very useful way to localize our nationwide network. Our Collection Centers use the notification feature of WebLINK to let them know they have messages. This allows them to respond to the callers in a timely manner."

### **About FreedomVOICE Systems**

Founded in 1996, FreedomVOICE Systems (FVS) develops and markets a comprehensive slate of integrated virtual office tools that allow businesses and professional offices to interact more effectively with their customers, clients, patients and associates. FVS' feature rich systems and flexible technology enable users to enhance their image, communicate seamlessly whether by voice, fax or email, track marketing effectiveness and promote their service by increasing their availability.

The company offers a wide array of products and services from 800-number toll free services to more advanced unified communications systems. For more information, please call 800-477-1477 or visit our web sites.
